Website Redesign with
Mobile Responsive

Prepared by :
Avanish V.

Prepared for :
Keystone Real Estate Advisory

Project Overview

This proposal outlines the redesign of a modern, mobile-responsive website for www.keystonerealestateadvisory.com. The website will serve as an engaging digital presence, with a better UI/UX, providing essential information and capturing user interactions effectively.

Design

- Custom, professional, and responsive design tailored to the client's brand identity.
- User-friendly layout with intuitive navigation.
- High-quality images, icons, and graphics to enhance visual appeal.
- Integration of client-provided content (text, images, logos, etc.).

Project Timeline

- The estimated project completion time is approximately 30 to 40 days, depending on the timely availability of approvals and assets such as images and content.

Costing

- The total cost for designing responsive web and mobile screens is **₹130,000**.
- This covers the complete redesign of all unique pages for both platforms, along with development support.
- Please note that any revisions beyond the agreed scope may be subject to additional charges.

Payment Terms

- 50% Advance.
- 50% upon completion and approval
